REMOVE UNUSED OPIOIDS FROM YOUR HOME

KEEPING UNUSED OR LEFTOVER OPIOID PAIN MEDICATION IN YOUR HOME CAN HAVE SERIOUS RISKS

About half of people who misused pain relievers reported the source was “given by, bought from, or took from a friend or relative.”

Children can accidentally take medication that is left in the home. Unintentional opioid exposure can lead to emergency room visits, overdose, and death.

- Hydrocodone
- Oxycodone
- Methadone
- Tramadol
